

Dear prospective or returning parents,

If you are reading this letter, you probably are considering Parkview as a choice for your student's high school education. You're definitely in the right place. As you make this monumental decision for your child, there are a few things you should know.

Parkview will continue to enjoy the magnet programs that have made this school outstanding. Each student will choose a field for intense studies in any of our seven magnet areas: Band, Orchestra, Vocal Music, Drama, Dance, Visual Arts or in Science and Engineering. Now, with the addition of the Ford NGL program, students may also enjoy the ability to explore career fields of interest as a compliment to their academic pursuits.

Regardless of the choice your student makes for their directed area of study, students can expect a rigorous curriculum that challenges them and helps them to think critically about what they are learning. They will have the opportunity to grow and learn with teachers who are artists, actors, musicians, and who have worked in the science field.

Parkview is a smaller high school than most, capping at an enrollment of 1200, and the school does not have a dedicated attendance zone. Every student that is accepted here goes through an audition and interview process – so the students that come to this school choose it for its programs.

Our school is safe, the staff is nurturing, and the coursework is challenging, and students are accepting. One of the strongest testaments to this is that our faculty brings their students to Parkview for high school – and many of the school's graduates now teach here.

We're here to prepare your child for college and for life. One of the best ways to experience Parkview is to see it for yourself by taking a tour. To do that, please call Ms. Mitzi Moore at 501-447-2318. When you come, we think that you will see what we see. Parkview is an amazing school with a talented and enthusiastic staff.

It's why we have remained best by choice.

Please call or email me if I can assist you.

Sincerely,

Mr. Eric Henderson, interim principal
